

Technical Data Sheet

Globigen Colostrum Complementary Feed

Target Species

Calves and small young ruminants

Description

Globigen Colostrum is a complementary feed for newborn calves, lambs, and kids to provide an additional supply of functional egg and colostrum immunoglobulins during the first days of life.

Composition

Whey protein powder, colostrum powder, egg products (dried), mono-, di-, and triglycerides of fatty acids (capric acid, caprylic acid, lauric acid, propionic acid), glycerine, dextrose, yeasts

Analytical Constituents

Crude protein 36,00 %	Crude fat 11,50 %	Crude fiber 1,00 %
Crude ash 9,10 %	Ash insoluble in hydrochloric acid 2,70 %	
Sodium 0,40 %		

Additives per kg

Nutritional additives:

Vitamin A (3a672a) 100.000 I.U.	Vitamin D 3 (3a671) 4.500 I.U.
Vitamin E (3a700i) 5.000 mg	Vitamin C (3a300) 1.000 mg

Feeding Recommendation

Globigen is mixed with colostrum at the following dosage:

Calves (g/animal/day)	50-100
Lambs and kids (g/animal/day)	5-10

* These recommendations are based on our experience and may be adjusted if necessary

Feeding Direction

Due to its high content of additives compared to a complete feed, this complementary feed should only be fed to the named species according to the above feeding recommendation.

Specifications

Appearance:	fine, homogenous, free-flowing powder, beige to pale brown
Density (g/L):	460-680

Storage and shelf life

12 months from the manufacturing date when stored cool (5-25°C), free of frost, dry and out of light. Once opened, use as soon as possible. No liability in case of improper handling or storage.

Packaging

Bucket 0.5 kg

Bucket 1 kg

Bucket 2.5 kg
